

Not Your Average Virtual Tour Platform

We're All Virtual Now

FastOffice is a visualization tool that helps tenants understand space, through 3D plans and virtual tours, even when they can't visit in person.

FastOffice is designed to be accessible and simple, so that it becomes an integral part of the conversation at all steps of the landlord and tenant relationship, from marketing and tours through leasing and occupancy.

All virtual. All incredibly fast. And at a price point that takes away any barriers to adoption.

The Right Tool for the Times

Today's extraordinary circumstances are leading to unparalleled challenges for landlords. Tenants are downsizing or even walking away from leases. Marketing and selling this new wave of vacant spaces is challenging because no one can visit in person.

Virtual tours and visualization are essential in this new environment to market, sell and manage space effectively.

Benefits

For Landlords

- Compelling 3D virtual tours and marketing layouts
- 3D base building plan easily repurposable for other tenant and property management requirements
- Expanded digital footprint for all CRE assets
- Low cost brings visualization and tools to everyone

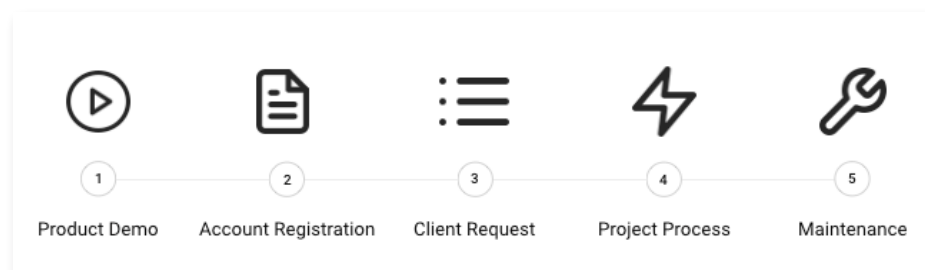

For Tenants

- Tour vacancies even when they can't visit the space
- Easily experience what's on offer across any number of vacancies
- Easily see if they fit in their preferred choices
- Simply manage use and changes to space during occupancy

For Broker Teams

- Low cost enables 3D marketing layouts for every vacancy
- Virtual tours bring space to life
- Easily integrated into existing marketing campaigns
- Test-fits and dynamic costing based on tenant specific requirements get to decisions faster
